

SAP PROFESSIONAL TRAINING

– A Way to Your Career Success!

ABOUT NECC

WWW.NECC.CA

NECC Teknology Inc. was established in 2001. The Institute has been continuously striving for excellence in education, training, research and consultancy in the fields of Management and Information Technology with a mission of offering “Value Based Education”. By intensive and meaningful teaching methods as well as regular input from practicing managers, the Institute grooms its students to excel as future managers and IT professionals, who can compete with the very best in the global arena and cater to the growing demands of the corporate world.

What we believe

NECC believes in developing professionals who believe in themselves and who are equipped with the latest state of the art in their respective fields; professionals who are confident and can compete in the challenging world. Our endeavour is to foster a desire for continuous improvement, to better prepare you for your place in the corporate world.
